# Our Products Make a Difference, Our Partners Help Make it Happen

## Trust EaglePicher® When it Matters Most

EaglePicher is seeking talented, qualified small business suppliers in numerous socioeconomic categories to contribute to our continued business growth. It is EaglePicher's goal to pursue opportunities to award subcontractors and procurements to these socioeconomic categories:

- Woman Owned Small Business (WOSB)
- Small Disadvantaged Business (SDB)
- Historically Underutilized Business Zone (HUBZone)
- Service Disabled Veteran Owned Small Business (SDVOSB)
- Veteran Owned Small Business (VOSB)

EaglePicher is committed to partnering with small and disadvantaged businesses to increase our Supplier Diversity Program. As a large business supplier for the Defense Industrial Base (DIB) we strive to meet these goals for utilizing certified small business suppliers. We proudly maintain on-going recruitment for talented suppliers to bring innovation and cutting-edge ideas to EaglePicher.

### **Become an EaglePicher Supplier**

EaglePicher is always interested in forging new relationships with companies able to help us provide the highest-quality products at competitive prices to our worldwide customer base.

# Steps to Become a Supplier

To determine if your company meets the requirements of a certified small business or any of the socioeconomic subcategories, review the requirements on the U.S. Small Business Administration website.

Is your company a good fit to be a supplier for EaglePicher? Here are some questions to consider.

1. Can your company meet strict quality and on-time

delivery requirements?

2. Is your company ready, willing and able to meet government flow down requirements including cybersecurity, anti-human trafficking, quality control related packaging, etc.
3. Does your company provide products or services fitting any of the following categories?

## Supplier and Part Level Categories

Level 1	Level 2	Level 3
Suppliers providing special processes or critical items for parts, materials or services utilized in production.	Suppliers providing parts, materials or services not classified as Level 1, but are utilized in production.	Suppliers providing non-product related materials and supplies.
<p>Include, but are not limited to:</p> <ol style="list-style-type: none"> <li>1. Fasteners with special processes: screws, nuts, bolts, washers, etc.</li> <li>2. All machining or metal fabricated items other than those listed for Level 1 or Level 2</li> </ol>

# Company Overview

EaglePicher is the industry leader in integrated power solutions, meeting mission-critical requirements for defense, aerospace, aviation, marine and medical battery applications. The company's reputation as a producer of high-performance batteries, battery management systems and energetic devices stems from over 80 years of meeting customers' critical battery application needs.

As the leading provider of thermal battery systems, to the Department of Defense, EaglePicher supplies power for the majority of the U.S. military's missile and precision guided munitions systems. EaglePicher's space heritage dates to the earliest days of the U.S. space program, from the first U.S. satellite, Explorer I, to the recent Mars Perseverance rover. EaglePicher has provided lithium-ion batteries to military aircraft and high-altitude unmanned aerial vehicles. Since the 1950s, EaglePicher has provided power to the Navy, working in some of the most demanding and harshest environments on the planet. The company has a long history of battery development for the medical industry, introducing the first human implantable lithium-ion battery and the industry's smallest implantable medical battery.

Founded in 1843, EaglePicher now has eight North American manufacturing and research and development sites and employs over 800 employees.
