

SMALL BUSINESS OVERVIEW & HERITAGE

DEFENSE

EaglePicher has been providing essential power solutions to Defense and Aerospace for over 100 years. As a leading U.S. manufacturer, it creates advanced designs and produces them to meet customer needs, combining the benefits of a small business with the stability of a large one.

CORE BUSINESS

THERMAL & SILVER-ZINC BATTERIES FOR:

- Missiles & Munitions
- Underwater Systems
- Space & Launch Systems

KEY CHARACTERISTICS

THERMAL BATTERIES:

- Hundreds of qualified designs with large-volume production
- Non-rechargeable; inert until activated
- Unactivated shelf-life of 20+ years; ready for immediate use upon activation

SILVER-ZINC:

- Available in both rechargeable & non-rechargeable
- Designed for manual and remote activation
- Unactivated shelf-life of 20+ years

PAST PERFORMANCE

POWERING MISSION-CRITICAL APPLICATIONS FOR:

- Torpedoes since the 1940s
- Space Systems since the 1950s
- Launch Systems since the 1960s
- Guided Munitions since the 1970s

KEY CAPABILITIES

- Multiple core scientific, engineering, & manufacturing competencies
- Electrochemical cells and batteries
- In-house electrical & environmental testing
- Active material formulation & processing

KEY INITIATIVES

- Advanced performance through chemistry development
- Process automation improving quality
- Strengthening a robust supply chain
- Vertical integration of glass-to-metal seal header manufacturing
- Vertical integration of electrode powder manufacturing & battery activation devices.

U.S. SMALL BUSINESS WITH HERITAGE & STABILITY

FOUNDED IN 1843 | HEADQUARTERS IN JOPLIN, MISSOURI
MANUFACTURING IN JOPLIN, MISSOURI & PITTSBURG, KANSAS
CERTIFICATIONS: ISO:9001 2015 & AS9100D
UEI: TUNPLDSV534 CAGE: 81855
NAICS: 335910 - BATTERY MANUFACTURING — PRIMARY NAICS CODE
NAICS: 325920 - EXPLOSIVES MANUFACTURING
